BOAT CARE KIT

Dulon 1 & 2 is the best 2-component Boat Shine and Protection System money can buy. Easy to apply, Dulon 1 is applied with a damp sponge, lightly polishing the surface, this is left to dry and haze. Do not buff this off yet! Dulon 2 is then applied the same way right over the top of the Dulon 1 haze, again allow this to dry to a haze. The surface is then polished by hand with a soft micro fibre cloth or machine with soft polishing bonnet to bring up a brilliant deep lustre. For best results work in the shade, on one section at a time.

TEAK WONDER

TEAK CLEANER / TEAK BRIGHTENER

These leave the deck looking like 'new'. Applying the two products contained in each bottle one after the other washes away the grey colour that has accumulated in the wood only to rediscover the splendid golden colour that new or just sanded teak possesses. All in a few minutes and without removing millimetres of precious wood from the deck, as occurs during sanding. Neither of these two liquids is aggressive or caustic and therefore does not damage rubber, paint or stainless steel fittings.

Code	Product	Size
MM TKW CB04	Cleaner	1 Gallon bottle
MM TKW CB06	Brightener	1 Gallon bottle

DRESSING AND SEALER

Will keep the splendid golden appearance without having to wash teak every day with fresh water. Applying this silicon based product seals the pores of the wood thus preventing the penetration of the dust and dirt that darken it, and also protests the natural teak oils against the ultraviolet rays that oxidise and discolour them. The dressing also prevents liquids such as diesel oil, fish blood, and paints from penetrating the wood, making subsequent cleaning easier.

SNAPPY TEAK - NU CLEANER

SNAPPY TEAK - NU BRIGHTENER

Restoring neglected, weathered teak is not a fun project. It usually involves hours of sanding while you're on all fours wishing your were somewhere else. Snappy Teak Nu has a better idea. The Teak Nu two-step, Formula 1 and Formula 2 chemical process removes gray mildew stains, oil, fuel and fish blood stains without softening deck seams. Teak treated with Teak Nu has the warm golden glow of freshly sanded wood without the hours of sanding.

DOUBLE VACUUM CUPS W/CLEATH (WHITE)

Codes: MM PSK SC1001

The main body is mold-injected with UV inhibitor nylon. A reinforced bridge unifies the two suction cups and includes a six and one half inch (6-1/2î) marine cleat as an integral part of the unit. Non-marking white thermoplastic elastomer cups prevent unsightly black rings. The lock down latch is nylon and attached to the cups with stainless steel retainer pins and nickel-plated cup shafts.

VERIBOR

SUCTION LIFTER, 2 CUPS, PLASTIC, WITH ARTICULATED JOINTS

3M™ FINESSE-IT™ MARINE PASTE COMPOUND

It is designed specifically for aggressive compounding of gelcoated fibreglass surfaces. This product is well suited for boat reconditioning of heavily oxidized surfaces finishes. This product is also well suited for removing P800 sand scratches on production gelcoat and grade P1000 or P1200 sand scratches on tooling gelcoat. White color reduces the potential for staining of light-colored boats.

Code	Size
MM 3M 06039	3,8 Kg

3M™ IMPERIAL™ COMPOUND AND FINISHING MATERIAL

It leaves an excellent finishing with minimal to no swirl marks. This white liquid compound and finishing material is designed to remove a P600 or P800 dual action sand scratch from gelcoat. Also it is an excellent choice for removing heavy oxidation.

Code	Size
MM 3M 06044	1 Lt

3M™ MARINE HIGH GLOSS GELCOAT

This paste compound is designed to quickly remove P800 dual action sand scratches or P1000 wet sanding scratches from production gelcoat. Contains no wax or silicone and leaves a high gloss finish without swirl/wheel marks. It has a unique formulation that reduces slinging while buffing.

Code	Size
MM 3M 06025	4,5 Kg

3M™ VOC3 MARINE COMPOUND

High performance marine coarse compound that removes sanding marks from the gelcoat. Low VOC content, it does not have to be diluted. Great product for a clean and high gloss finish.

3M™ DISPOSABLE FOAM EAR PLUGS

They provide comfortable and effective noise reduction with the convenience of disposability. They are available as uncorded ear plugs or with a cord attached that prevents loss of earplugs. Made of soft, hypo-allergenic polyurethane foam. The smooth, dirt-resistant surface is designed for better hygiene, durability and comfort and the tapered design fits most ear canals making the plugs easier to use. Used to protect hearing from loud and constant noises generated by grinding, sanding, buffing, engine work and other Marine operations.
SNR 37dB, EN 352-2, CE

Code	Description
MM 3M 1100	Uncorded
MM 3M 1110	Corded

3M™ BANDED EAR PLUGS

They have a unique flexible band design that allows greater ease of use and low pressure over a wide range of head sizes for superior comfort and effective noise reduction.
Innovative, stylish design for comfort and minimum contact with clothing. The round foam tips do not enter the ear canal and allow for potentially better hygiene. They can be worn behind the head or under the chin.
SNR 26dB, EN 352-2, CE

Code	Description

MM 3M 1311	Replacement tips

3M™ E-A-R™ ULTRAFIT 20 EAR PLUGS

Correctly matched to the noise level it allows conversation and background music to be heard whilst helping to protect the user from hearing loss. Moisture resistant, reusable, lightweight design.
SNR 32dB, EN352.2, CE

Code	Description
MM 3M UF01000	Corded

3M™ REUSABLE EAR PLUGS

Finger grip design improves ease of insertion and the triple flanged design fits securely in the ear canal, providing a comfortable fit thus improving wearer comfort and assured protection.
They do not have to be "rolled down" to achieve proper fit. This provides greater hygiene, as the workers hands need not touch the portion of the ear plug being inserted into the worker's ear.
Available with a convenient storage and carrying case with belt clip which conveniently keep plugs clean.
SNR 25dB, EN352.2, CE
